F.No.1-13/2014-NVS(Estt.I)  
Date: 16-05-2018

Dear Principal,

As you are aware, Samiti has just concluded one round of recruitment of teachers for the Jawahar Navodaya Vidyalayas during this year. This special letter is being addressed to all of you with respect to induction process to be adopted in the Vidyalayas on the arrival of new teachers, in view of feedback from new entrants.

I strongly believe that the whole process of getting the persons adjusted into the new environment is a very crucial task of the Vidyalaya Administration. You would also agree with me that residential school atmosphere is a rare environment even for the teachers. Adjusting therefore, takes time and energy. It also requires conscious efforts of the school team in helping the new entrant to adjust. I also believe that the new teacher entering into the system has to be very carefully nurtured, mentored and motivated to concentrate their energy and special abilities to fulfil the objectives of Navodaya Vidyalaya Samiti. Let us also not forget that every teacher is inducted into system with a lot of hopes of supporting and nurturing talented children. In this process our backend activity of mentoring the new teachers and staff is pivotal to the fulfilment of our bounden duties.

I would like to exhort upon you to ensure that the new entrant is carefully inducted and the individuals are given the confidence to work with dignity and understanding of the objectives of the Navodaya Vidyalayas so that they contribute effectively towards nurturing the talent of young minds.

I would remain grateful to you for active participation in maintaining vibrant relations inside the campus in which children, teachers and staff work in unison with courage and confidence. This will help in building a healthy and balanced school community.

With regards,

Yours sincerely,

  
Bishwajit Kumar Singh 16/05/2018
