Dated : March 2, 2017

Dear Children,

Greetings

I have been apprised by the system that your preparations for final examinations are in full swing. I consider it very essential to interact with you directly at this juncture prior to the final examinations to share my greetings and wishes.

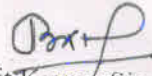

Being in a residential atmosphere your experience and record of performances in all the activities will explain your merit in your career. I hope you have enjoyed participating in all the activities with full enthusiasm, interest and knowledge of activities.

Although annual examinations are not the sole factor of your merit, the record of your performance in the final examination will certainly show up on priority. I would, therefore, presume that you have prepared for the examinations very seriously. Now it is time for you to organise your thoughts and preparations peacefully and brush up your skills of performance in the examination without any worries. Also please note that personal stress added individually reduces the performance. Therefore, I strongly recommend you to allow your mind to peacefully organise the expressions so as to help you to write your examination to your fullest satisfaction. Do check your speed of writing and language you use. This will be of great help in answering the questions with brevity.

I have already made a request to your teachers to walk an extra mile to be with you and to provide proper safety. Please do share all your concerns without any hesitation with the teachers/principal who should be able to give you appropriate strategies in clearing your doubts with ease to achieve your own targets.

My best wishes to all of you individually.

Yours sincerely,

(Bishwajit Kumar Singh)
